

Event Accessibility Checklist

Prepared by Elizabeth Ralston Consulting, LLC

When you host an event, you can expect that people with disabilities will attend. Disabilities can be apparent – for example wheelchairs or canes – and they can be non-apparent – for example hearing, vision, PTSD, anxiety, autism, and other neurodiverse conditions. The overall goal is to make your event as welcoming and inclusive to people of all abilities and backgrounds. Achieving this goal requires preparation in advance of the event, attention to accessibility at the event, and reflection after the event. This checklist provides concrete steps for these three stages.

EXPECTED ATTENDEES: ☐ General public (all types of people)

People with ☐ Vision disabilities ☐ Hearing disabilities ☐ Physical disabilities ☐ Cognitive disabilities ☐ English Language Learners (ELL)/Limited English Proficiency (LEP) ☐ ID as neurodiverse ☐ Other

ACCESSIBILITY/INCLUSION GOALS FOR THIS EVENT: (list here)

DONE	ACTIVITY	TIMING	OWNER	NOTES
Before the event
